Test date check (6 monthly checks required)		
Battery charged and battery green light working		
2 x ratchet straps		
Piano cover		
Blanket or jiffy foam to place between lid and music desk		
Roll of shrink wrap		
Tipping pin		
Stabilizing leg		
Remote control		
Hardboard and correx for floor protection		
Ramp		

I have been trained to use the PianoLift and am confident to proceed:

Name:.....

Date:.....

Trained by:..... Company:.....

Risk assessment: a risk assessment of the route to take must be carried out prior to use.

WARNING: Do not use the pianolift on wet surfaces

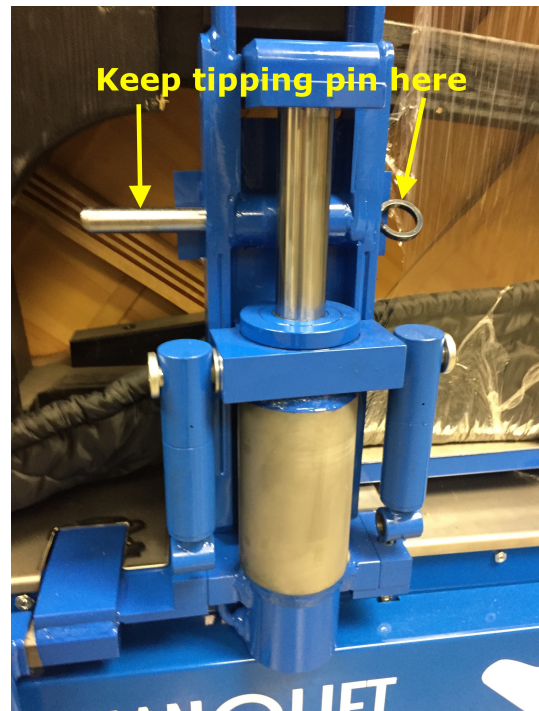

Full PianoLift manual and operating video can be found at:

Operating tips

Battery light: Green = full power Orange = 50% Red = recharge

**The balance point is
between the two half circles**

To turn the PianoLift on the center beam the balance of the piano should be between the two half circles, this is also the tipping point when going up stairs.
